Peter Schiff's Message to Switzerland: 'Save Your Currency and Your Country'

Peter Schiff and his team created the below video on Nov 6 which some of you may already have seen. We believe that Peter's powerful 14 minute message to the Swiss people is a 'must listen'. It does not only apply to Switzerland but to an entire system of nations that is printing money at will and gambling away tax payers' money. My country now has a unique and one time opportunity to get its house in order and stay independent from a failing Eurozone and a weak Euro.

We thank Peter Schiff for his continued support and outspoken view.

Please listen to what he has to say.
