Matterhorn Asset Management/GoldSwitzerland has teamed up with Goldbroker.com to enable investors to buy and store physical Gold and Silver.

GoldBroker.com is owned by FDR Capital ltd whose founder is Fabrice Drouin Ristori (FDR). Matterhorn Asset Management has known FDR for several years and in October 2012, **Egon von Greyerz**, founder of Matterhorn Asset Management, joined the board of FDR Capital Ltd to further solidify the cooperation.

GoldSwitzerland, the Precious Metals Division of Matterhorn Asset Management, enables investors to buy allocated and segregated physical gold and silver stored outside the banking system from an starting value of approximately 200 oz of gold.

GoldBroker.com offers the same unique service for investors from Swiss Francs 5,000 (Euro or US\$ 5,000). The Gold and Silver bars are **allocated** and **segregated** and held in name of the investor who has direct control over the precious metals holding in the vault.

Through GoldBroker.com, as with GoldSwitzerland, investors have personal access to their stored precious metals.

This new cooperation meets GoldSwitzerland's desire to enable both smaller as well as larger investors to protect their wealth.

Goldbroker's primary market is France. The company also operates in several other European countries and in the USA.
