

QE4 to Trigger unprecedented market moves

written by Edward Maas | May 19, 2015

King World News weekly – 14 May, 2015

Egon von Greyerz “Eric, we are now starting to see the signs that will trigger an end to the most massive financial bubble in the history of the world. Gold and silver move in anticipation of economic events, and some of the indicators I look at are flashing major warning signals. Take, for example, M2, which illustrates the money supply in the U.S. and also the velocity of money. The money velocity is continuing...
