

US Plunge Protection Team activity

written by Edward Maas | October 27, 2014

KWN weekly – October 25, 2014

Greyerz: “Eric, people in the West are enslaved to a system where the state takes care of everything. The state takes care of many people from cradle to grave. Switzerland is one of the only countries where there is a degree of individual freedom. For the Swiss it has always been important to have the people make decisions and not to let the government dictate..
